

MATH SUPPORT FOR SCHOOLS

Rooted in research and dedicated to nurturing the joy of both teaching and learning mathematics, MMSA's K-12 professional learning services are tailored to your school or district's context, goals, and evolving needs. Our math specialists will help you create a customize package from the following services.

PROFESSIONAL DEVELOPMENT

- Engage in evidence-based, hands-on workshops and facilitated learning experiences.
- Deepen your understanding of key math concepts and effective instructional strategies.
- Cultivate a collaborative learning culture that empowers both teachers and students.

MATH INSTRUCTIONAL COACHING

- Receive individualized or team-based, student-centered coaching in real classroom settings.
- Co-develop and refine lessons, assessments, and teaching techniques for maximum impact.
- Build capacity through continuous, targeted feedback and reflection.

PROGRAM IMPLEMENTATION SUPPORT

- Get facilitated guidance through every stage of a new math program, from initial selection to ensuring its effective, long-term use.
- Strengthen implementation integrity for lasting gains in student learning.
- Adapt and refine materials to align with your district's goals and needs.

STRATEGIC PLANNING

- Collaborate on comprehensive approaches to data collection, organization, and analysis that center on student growth.
- Design structures and processes that clarify decision-making and sustain high-quality math instruction.
- Build capacity on leadership teams to foster a shared vision and consistent, cohesive, equitable practices.

INTERVENTION & DIFFERENTIATION SUPPORT

- Identify and address individual student needs with targeted, research-based intervention strategies.
- Develop flexible grouping and differentiated instruction methods that boost engagement and success.
- Equip educators with practical tools that integrate seamlessly into daily routines.
